
Robot Framework Non Existing Setting Library

Library [X]

Name: Remote [Browse]

Args: http://localhost:8270/JMSLibrary

Alias: JMS Library

Comment: # A test library written in Java (running within the Remote Server) to test MQ systems through JMS

Give name, optional arguments and optional alias of the library to import.
Separate multiple arguments with a pipe character like 'arg 1 | arg 2'.
Alias can be used to import same library multiple times with different names.
